

# 2-DAY TRAINING COURSE

## Maxilla-For-All®

Master the extreme in the Full Arch  
immediate restoration with pterygoid,  
trans-sinus and zygomatic implants

### TOMMASO GRANDI

Live Surgery • Theory • Hands On

TOMMASO GRANDI  
EDUCATION

# PRESENTATION

More and more colleagues are asking for solutions to restore edentulous patients with fixed teeth even in cases of severe atrophy and poor quality bone. Flexibility, agility, competence. This is what it takes to **master extreme cases**.

This advanced course is aimed at those who already face full arch rehabilitations with confidence but often stop in front of the most challenging cases, especially in the **atrophic maxilla**. If you are looking for solutions this is the course for you. After this course, **you will increase your treatment options** in cases of moderate and severe bone resorption and you will be able to treat more patients with immediate full arch protocol.

I will show you how to solve your full arch cases in **one day, graftless** and with **immediate loading**.

I will teach you how to **solve 100% of your full arch cases** with **Maxilla-For-All®** treatment concept by using **pterygoid, trans-sinus, zygomatic and trans-nasal implants**.

# PROGRAM

## 1<sup>st</sup> Day

### **Live Surgery Sessions: 8:30AM - 3:30PM**

Participants will have the chance to assist to complex step by step live surgeries with trans-sinus / pterygoid implants and also with zygomatic and trans-nasal implants. Follow the entire workflow closely, step by step, and take your skills in the treatment of full arch to the next level.

### **Dental Clinic Tour : 4:00PM - 5:30PM**

## 2<sup>nd</sup> Day

### **Theoretical Part: 9:00AM - 1:00PM**

- Anatomical limits of the original Full Arch on 4/6 treatment
- Evolution of the treatment to solve the most complex cases
- Trans-sinus, pterygoid, zygomatic and trans-nasal implants.
- Surgical techniques operating sequences with step by step videos
- Key factors for the success of the treatment
- Literature review

### **Hands-On Session: 2:00PM - 4:30PM**

Each participant will have the opportunity to place trans-sinus, pterygoid, zygomatic and trans-nasal implants on simulators and practice with the components.

# FINDINGS

You will be able to live the experience of a clinic with **great expertise** performing more than 6.000 implant and 800 full arch immediate rehabilitations per year.

The entire **digital workflow** for both **guided surgery** and **3D prosthetic design** is developed in a modern in house laboratory equipped with all the 3D design software and the most advanced equipment for both 3D printing and metal milling.
